INTRODUCTION AND GENERAL INDEX

HILL DIRECTORY COMPANY, publishers of Southeastern Directories, present to subscribers and the general public, this, the latest edition of the Chapel Hill City Directory. (In all, the HILL DIRECTORY COMPANY and its affiliated companies publish more than 1,400 City, County, State and National Directories).

Confidence in the growth of Chapel Hill's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Chapel Hill to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional people and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Chapel Hill City Directory will fulfill its mission as a source of authentic information pertaining to the community.

Four Major Departments

The four major departments are arranged in the following order:—

I. THE BUYERS' GUIDE constitutes the first major department, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business Section, which embraces a list of the names and addresses of all business and professional concerns of the community, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the community. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like Chapel Hill, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents, business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Chapel Hill, and the name, official personnel, nature and address of each firm and corporation in the community. A special feature of this section is the listing of telephone numbers.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE is the third major department, printed on green paper. In this section, the numbered streets are arranged in numerical order; followed by the named streets in alphabetical order, the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of owner-occupied homes, the listing of telephone numbers, new householder symbols and Zip Codes.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major department, printed on blue paper.

This publication also contains a Chapel Hill Rural Residents Directory printed on white paper immediately following the Numerical Telephone Directory.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site, and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Chapel Hill and vicinity.

The Chapel Hill Out-Of-Town City Directory Library

Through the courtesy of the publishers of the Chapel Hill Directory, a Directory Library is maintained in the offices of the Chapel Hill-Carrboro Chamber Of Commerce, for free reference by the general public. This is one of over 800 Directory Libraries installed in cities and towns throughout the United States, Canada and Puerto Rico through the courtesy of your publisher.

The publishers appreciatively acknowledge the recognition by those progressive business and professional people who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

UNIVERSITY OF NORTH CAROLINA

The University of North Carolina at Chapel Hill is in a very real sense the mother of hundreds of state colleges and universities. These institutions had their humble beginning in the dark days of the American Revolution when the University at Chapel Hill was provided for in the State Constitution at Halifax in 1776.

OLD EAST—Oldest building on the UNC campus, and first building ever to be constructed on a state university campus in the United States. Cornerstone laid in 1793. It has been named a national shrine.

Chartered in 1789, six years later, it became the first state university in America to open its door to students. At that time, its physical plant consisted of a single building, Old East Dormitory, which is still in use today, and is the oldest structure on any state university campus in the country.

From its beginning, the University enjoyed a steady, healthy growth. In 1860, it stood at the forefront of American universities and had the second largest student body in America. In 1931, the State Legislature directed that the State College at Raleigh, the Woman's College at Greensboro, and the University of Chapel Hill be consolidated, and under unification, all three institutions have continued to make steady progress. While combined enrollment is now approximately 35,000, enrollment at the University at Chapel Hill is now approximately 18,130, and the faculty numbers more than 1,500. In addition to students in residence, the University has approximately 1,500 students enrolled in correspondence courses, and hundreds in off-campus extension classes and college centers.

Graham Memorial

The University at Chapel Hill comprises 14 schools and college—the General College, the College of Arts and Sciences, the Schools of Education, Business Administration, Law, Medicine, Pharmacy, Dentistry, Public Health, Library Science, Nursing, Journalism, Social Work, and Graduate School. The Division of Health Affairs was established in 1949. Its physical plant embraces almost 1,700 acres and approximately 125 permanent buildings, valued at approximately \$135,000,000. It is the oldest state university in the nation, founded in 1793, near the geographical center of the state. With pride in cultivating the natural beauty of the region, the campus is among the most attractive in the world.

Several years ago, the American Council on Education sponsored a Survey of departments qualified to give Doctor of Philosophy degrees. It found more such departments at the University than any other, south of Baltimore and east of the Mississippi. In two surveys made by the United States Navy incident to the location of one of its Pre-Flight training schools, the University was adjudged the most desirable in the south and east.

CHAPEL HILL—The \$2.6 million Van Hecke-Wettach Law School Building at the University of North Carolina here is the latest and most modern of law-training-oriented institutions in the United States today. More than 500 students are enrolled. The building will accommodate up to 700 students. The contemporary-functional architecture building is completely equipped with expanded classroom, library, office and courtroom facilities. The library houses some 120,000 volumes but has space for approximately 300,000 books. The classroom wing is built of poured-in-place concrete columns and girders with pre-cast, pre-stressed concrete double tees for the floors and roof. The library is of poured-in-place columns and "waffle" (concrete) slabs. Its exterior walls are brick on both sides. The structure is air-conditioned. Much of the interior woodwork is stained oak. Dickson Phillips is Law School dean.

The Division serves as a teaching-research-therapy center for training of professional men and women on the student level, as interns and residents, and as experienced professional specialists concerned with further post-graduate development.

Medicine

The School of Medicine was established in 1879, and became a four-year school with a teaching hospital attached in 1952.

The School has the approval of the Association of American Medical Colleges, of the Council on Medical Education and Hospitals of the American Medical Association.

Departments in the School of Medicine are divided into the following parts; medicine, pathology, preventive medicine, anatomy, bio-chemistry, psychiatry, physiology, obstetrics and gynecology, radiology and pediatrics.

Public Health

The School of Public Health trains students and performs activities for the "body politic" that the School of Medicine does for the individual.

Standards

The University is a member of the Association of American Universities, and several of the colleges, schools and departments have attained national distinction in their special academic spheres.

The General College

Most freshmen and sophomores in the University enroll in the General College. For two years they follow the basic and liberal subjects constituting the foundations of that general education which is regarded as essential to balanced development and intelligent citizenship.

A feature of the General College is the extent of guidance and personal counseling available to students. Each student is the special charge of a faculty adviser.

Arts And Sciences

The College of Arts and Sciences is the largest single academic unit of the University, enrolling the majority of the undergraduates. After two years of General College study, most students not following specialized or other professional courses are assigned to the College of Arts and Sciences, admission to which is governed in part by maintenance of at least a "C" average of the previous two years.

Departments of instruction in the Arts and Sciences include Art, the Classics, Dramatic Art, English, General and Comparative Literature, Germanic Languages, History, Journalism, Music, Philosophy, Radio, Religion, Romance Languages, Economics, Education, Physical Education, Political Science, Psychology, Sociology and Anthropology, Botany, Chemistry, Geology and Geography, Mathematics, Physics, and Zoology.

The College prepares students for bachelor of arts and bachelor of science degrees, or provides preparation for advanced professional and graduate studies.

Business Administration

The School of Business Administration occupies a place in the University organization coordinate with the other professional schools and the College of Arts and Sciences. The School is a member of the American Association of Schools of Business.

Main programs are in accounting, economics, statistics, marketing and personnel, with courses in insurance, advertising, business law, production, purchasing, traffic problems, wholesaling, retailing sales management, taxation, finance, banking, scientific management, collective bargaining, labor problems and transportation. Besides the graduate and the undergraduate programs is The Executive Program, a project in advanced management for a selected number of leading business and industrial executives.

Law

The School of Law is one of the approved law schools of the American Bar Association, and is a member of the Association of American Law Schools. It is housed in the new Van Hecke-Wettach Law School Building on the south-east end of the campus.

Undergraduates who have completed at least three years of acceptable work toward a baccalaureate degree at an approved college or university are eligible to enter the School of Law.

Health Complex

A seven-in one Division of Health Affairs is sometimes called a health university within a university. The seven-fold health complex includes School of Medicine, School of Pharmacy, School of Public Health, School of Dentistry, School of Nursing and teaching hospital, the North Carolina Memorial Hospital and Gravelly Sanatorium.

It is one of the new public schools in the nation and has both a national and international reputation for teaching and research. It trains doctors, nurses, sanitarians and other technicians and special health educators. There is departmental instruction in biostatistics, epidemiology, experimental medicine, public health administration and education, maternal and child health, mental health, public health nursing, nutrition, parasitology, and sanitary engineering.

Pharmacy

The Pharmacy School was established late in the 19th Century because of the urgent demand of pharmacists in the state, and the demands for more and more pharmacists continues past the mid-twentieth century. The American Council on Pharmaceutical Education accredits the school Class A.

Nursing

The School of Nursing offers a four-year curriculum leading to a bachelor of science degree in nursing. The students of nursing take a full part in campus academic, political and social affairs. The School of Nursing is accredited by the National League for Nursing.

Dentistry

The School of Dentistry operates a superior program of training for dentists, dental technicians, and dental hygienists. Besides producing students, the school conducts post-graduate courses for dentists throughout North Carolina. It is a Class A School, so accredited by the American Dental Association.

Education

Closely connected with the public school system of the state is the School of Education which trains those men and women who wish to follow elementary and high school teaching as a career.

The School is recognized for the high quality of its work in preparing teachers for jobs and for its success in placing student in higher positions in the schools and for special courses, in the summer and in regular semesters, which benefit teachers working for higher degrees and certificate credits.

Communications

A prominent new feature of higher education is the use of television together with radio and motion pictures, all three utilized with conjoined efficiency in the Department of Radio, Television, and Motion Pictures, a part of the UNC Communications Center.

All aspects of broadcasting and film production are taught—including announcing, acting, script writing, visual aids, production, commercial phases of the communications and operation of equipment.

Allied with the department is WUNC-TV, an educational television station broadcasting on Channel 4, and a frequency modulation radio station, WUNC.

Journalism

The School of Journalism seeks to give more than practical training to those wanting to become newspapermen. The school also has high standards and insists upon thorough arts and sciences training as a preliminary to training in journalism. The school trains both graduate and undergraduates, and many newspapermen of national standing are among the alumni of UNC's School of Journalism.

SOUTH BUILDING—The office of the Chancellor and other administrative officials are located in South Building, atop which is a bell to keep students posted on class times.

Carroll Hall

Institute for Research in Social Science

The Institute for Research in Social Science performs a vital service for state and nation in finding facts that are useful for society. This is performed by channeling the tremendous educational resources of the University into practical outlets—in service to the state and federal governments, to separate governmental organizations in the state, to non-profit foundations and agencies.

Extension

Besides instruction of students enrolled in the University, there are thousands of other students who take correspondence courses or enroll in special short courses, clinics and institutes. The advantages of the University in teaching and in other ways are made available to the people of the state and region by the University Extension Division.

WILSON LIBRARY—One of the finest libraries in the region, the library contains more than 1,500,000 volumes. Main features include the North Carolina Collection, the Southern Historical Collection and the Rare Book Room.

Photo Courtesy of University of North Carolina News Bureau

OLD WELL—Official symbol of the University and favorite meeting place for students and alumni, the Old Well is located in the heart of the old campus.

Graduate School

Granting that much of the rank of a university rests upon the quality of its teaching on the graduate level as well as for undergraduates and also assuming that respect for an achievement of basic and applied research is one of the hallmarks of a distinction of a university, the University of North Carolina has offered advanced courses beyond the undergraduate level. Degrees under the supervision of the graduate faculty are the Master of Arts (A.M.), Master of Science (S.M.), and Doctor of Philosophy.

Masters degrees are offered in 42 fields. The Ph.D. degree offered in 27 fields.

Social Work

The School of Social Work has developed from an earlier School of Public Welfare in accordance with a University policy of meeting the varying needs of the state and Southern region. It is accredited by the Council on Social Work Education, and its program for the training of Psychiatric Social Workers is approved by the American Association of Psychiatric Social Workers.

Institute Of Government

The Institute of Government is a unique grassroots program of instruction and guidance for officials in North Carolina charged with responsibility for county, city and state government.

Officials of county court houses, city halls, the state capitol and other centers of government come to Chapel Hill for special conferences and clinics taught by trained instructors.

Besides bringing court judges, tax collectors, registrars of deeds, jailers, sheriffs and the like to Chapel Hill for specialized instruction, the Institute of Government also conducts special surveys in all parts of the state for local governmental improvement. The Institute bridges the gap between the way law is taught in the classroom and the way it is practiced in the court houses, combining theory with practicality with a harmonious design.

Library

The University Library is unquestionably the heart of the University's life. It is truly one of the distinguished libraries of the region and contains many fine collections, majoring in the Southern Historical Collection and a collection of North Carolina historical and other volumes. The main library collections are housed in the Louis Round Wilson Library building, a magnificent structure which is a center of campus activity for both students and faculty.

UNC Press

The University of North Carolina Press has published books and periodicals of interest since 1922. The Press issues a large number of volumes annually. It is a member of the American Association of University Presses.

MOREHEAD BUILDING—A gift from John Motley Morehead, a UNC alumnus, the Morehead Building houses the University's famed Planetarium, where U. S. astronauts train, and the Morehead Foundation offices where the largest scholarship program for undergraduates in the U. S. is administered.

CHASE CAFETERIA—One of the newest and most modern cafeterias on a university campus in the country, Chase Cafeteria is designed to feed 5,000 students per meal. With its glass walls and marble kitchen floors, it has been called the "most beautiful college cafeteria in the U. S." and has won a food service trade award. In the background is the new multi-storied Morrison Residence Hall.

Morehead Planetarium

Among the showplaces of Chapel Hill is the Morehead Planetarium, which is a gift of John Motley Morehead. The Zeiss Planetarium was made in Germany. It is one of only seven in the United States, and the only one in the world that is located on a university or college campus. More than a million people, many of them school children, have attended demonstrations in the Planetarium and learned the significant lessons of man's world and God's Universe. All of our astronauts have taken their celestial navigation training at the Morehead Planetarium.

These services utilize educational television and radio, classes in various parts of the state, lectures, library service, adult education programs, audio-visual education, high school interscholastic activities, the fine arts and publications.

Library Science

The School of Library Science trains graduate students in the profession of librarian. The school has high standards and is a reservoir of talent for libraries in public libraries of the state, in public schools, and in college and university libraries over the country.

The School is accredited by the American Library Associations.

DAVIE HALL—Named for William R. Davie, the man who selected the site for the University, this building is one of the newest and most modern on campus. It houses the Psychology Department and has received an architectural award.

Dramatic Arts

The Carolina Playmakers are distinguished for their development of folk drama, training both playwrights and actors and fostering the growth of outdoor dramas which has gained international recognition in the world of dramatics. What the little theatre is to a community, the Carolina Playmakers have become in North Carolina and the region. The national attainment of some of its alumni testify to the worth and ferment of the Playmakers who are so integrally a part of the Department of Dramatic Arts.

★ Out of Business ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

CASHIERS! TELLERS! CLERKS!

*Do your employers furnish you with the
latest edition of the City Directory?*

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Pay no money in advance to itinerant Directory Carriers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. Power of Advertising

THE CITY DIRECTORY is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

CAUTION

Pay no money in advance to *Wharren Directory Companies*. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our collectors have strict orders not to take advance payment for either advertising or subscriptions.

Pay no money in advance to **Internal Directory Companies**. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. CAUTION

Pay no money in advance to itinerant Directory Conveyers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

CAUTION

Pay no money in advance to Hithertofore Directory Cameramen. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscription.

CAUTION

Pay no money in advance to itinerant Directory Cameramen. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

CAUTION

Pay no money in advance to HERRON Directory Compilers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

Pay no money in advance to *thirteenth* Directory *Conveyors*. We are
led to mention this from the fact that certain parties have been fraudulently
using our publications as specimens, and by that means collecting money
in advance. Before signing an order, see that it has the name of the
publisher of this City Directory printed thereon. We ask no payment until
the work is delivered, and our solicitors have strict orders not to take
advance payment for either advertising or subscriptions.

CAUTION

Pay no money in advance to National Directory Companies. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

CAUTION

Pay no money in advance to itinerant Directory Canvassers. We are
to mention this from the fact that certain parties have been fraudulently
using our publications as specimens, and by that means collecting money
in advance. Before signing an order, see that it has the name of the
publisher of this City Directory printed thereon. We ask no payment until
the work is delivered, and our solicitors have strict orders not to take
advance payment for either advertising or subscriptions.

NUMERICAL TELEPHONE DIRECTORY

The Telephone Numbers and names in this Directory were supplied to us during our regular door to door canvass.

This Directory is designed to assist you in providing additional information when only a telephone number is available.

NUMERICAL TELEPHONE DIRECTORY

BLUE PAGES

This Directory takes the "mystery" out of blind numbers. It lists telephone numbers in numerical sequence, making it easy to "decode" blind phone numbers in classified ads—especially valuable for real estate agencies, used car dealers, etc.

WHAT'S IN A PHONE NUMBER?

ABOUT THE FIRM:

Who called me? When your call back message gives a telephone number only—or includes a common surname such as Jones, Smith, Brown, etc.—this Numerical Telephone Directory will assist in determining correct firm name. Make use of both Alphabetical and Street Guide information to establish names of officers, owners or partners, products and services, and correct address. Properly identify firm and caller and have needed records, file or correspondence on hand before returning call.

ABOUT THE INDIVIDUAL:

Who called me? When only a telephone number is known, this Numerical Telephone Directory will assist in determining the name of the subscriber—with this information combined with other sections of your City Directory you may quickly establish such information as wife's name, place of employment, job title, home address, business address and telephone number.

Power of Advertising

THE CITY DIRECTORY is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

CAUTION

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

Power of Advertising

THE CITY DIRECTORY is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.
